WITH RINOX**

THE OPPORTUNITY

The demand for Stainless Steel (SS) Railings is skyrocketing. SS Railing have become the preferred choice for modern construction due to their low maintenance and long-term cost-effectiveness.

The added advantages of pre-engineered railing systems, featuring no-weld technology and standard components has opened an enormous business opportunity.

Rinox has been a pioneer in this technology and has over 20 years of industry expertise and a satisfied customer base across 67 countries, Utilizing German manufacturing technology, continuous innovation and operating multiple manufacturing facilities in India and China, Rinox has emerged as Asia's number one company for Stainless Steel Railings.

We welcome you to partner with RINOX and seize the opportunities in this thriving trade. Rinox provides comprehensive support to start on this business venture, offering two distinct models tailored to your existing business and desired company structure.
